Digital Content Access Control Patents Available on the Ocean Tomo Bid-Ask™ Market

Ocean Tomo Bid-Ask™ Market patent portfolio auction of six patents related to Digital Content Access Control.

CHICAGO, IL (February 20, 2019) Ocean Tomo Transactions, LLC will auction a portfolio of six patents related to Novel Captcha Systems.

The patents in [lot 92](#) relate to innovation for verifying human users through cognitive processes. Visual patterns and tests are used to distinguish between human users and computers through exploiting the fundamental differences between computer-based vision and human visual processing.

The patents also teach preventing the outsourcing of cracking captchas through detecting language and/or cultural fluency. Further disclosed mechanisms prevent human validation requirements from interrupting workflow, in one aspect by providing the ability to keep a Captcha response updated between user tasks.

The patents in this auction would be of interest to any business creating an online secure platform.

To request bidder credentials or for further information on this auction or other auctions on the Ocean Tomo Bid-Ask™ Market, contact Layna Guo at LaynaGuo@OTI.com or 1-312-327-8179.

About the Ocean Tomo Bid-Ask™ Market

The [Ocean Tomo Bid-Ask Market](#) is an open on-line platform to buy and sell patents. This market is an important step forward, both as a simplified solution for patent transactions as well as a source of information on patent pricing. The Ocean Tomo Bid-Ask Market uniquely combines the efficiency of an online platform with an experienced team of brokers fluent in both English and Mandarin. The market uses standard transaction documents and is open, transparent and free to view.
