

OCEAN TOMO®

Auction of Technology for On-Site Microbial Activity of Soil Assessment Available on the Ocean Tomo Bid-Ask™ Market

15 global patents related to soil assessment and remediation, facilitating precision fertilization, available at auction on the Ocean Tomo Bid-Ask Market

CHICAGO, IL (June 29, 2020) Ocean Tomo Transactions, LLC will auction a portfolio of patents related to technology that optimizes the yield of a harvest by assessing the microbial activity of soil. Ocean Tomo Bid-Ask™ Market [patent auction lot 109](#) consists of 15 patents from jurisdictions across Europe, Asia and the United States. The invention optimizes the yield of the field harvest through a special device (the Fertimeter) by assessing the level of microbial activity of the soil. The Fertimeter device sends the collected information directly to a special software to analyze what the soil needs eliminating the need to send the samples to a remote testing facility. The technology auction lot includes patents, device prototype and software.

This technology would be of interest to companies in the agricultural and environmental sectors. Agricultural equipment suppliers and companies servicing the needs for farmers to assess and immediately remediate the soil provides both an economic benefit to the farmer and is advantageous for the environment. The technology can also be utilized to assess the opportunity to reconvert marginal lands for cultivation and to inform the productive potential assessment, land-rest decision-making. The technology in lot 109 allows for continuous, real-time, on-site soil assessment, eliminates the sample transportation costs and wait times, facilitating precision fertilization.

To request bidder credentials or for further information on this auction or other auctions on the Ocean Tomo Bid-Ask™ Market, contact Layna Guo at Layna@OTI.com or 1-312-327-8179.

About Ocean Tomo Bid-Ask Market

[The Ocean Tomo Bid-Ask Market](#) is an open on-line platform to buy and sell patents. This market is an important step forward, both as a simplified solution for patent transactions as well as a source of information on patent pricing. The Ocean Tomo Bid-Ask Market uniquely combines the efficiency of an online platform with an experienced team of brokers fluent in both English and Mandarin. The market uses standard transaction documents and is open, transparent, and free to view.
