

OCEAN TOMO®

**Spray the Bottle Dry – Technology to Maximize Liquid Spray Dispensing Available on the Ocean Tomo Bid-Ask™ Market**

*Patents, molds, design process, prototype files, inventor consultation and 500 units of product for technology to maximize liquid spray dispensing available at auction on the Ocean Tomo Bid-Ask Market.*

CHICAGO, IL (June 30, 2020) Ocean Tomo Transactions, LLC will auction a portfolio of patents, molds, design process and prototype files, inventor consultation, and 500 units of product for technology to maximize liquid spray dispensing. The liquid spray dispenser suction tube deflector technology is available on the Ocean Tomo Bid-Ask™ Market in [auction lot 111](#). The technology in this auction alleviates consumer frustration and product waste associated with dry firing, the inability of many spray bottles to dispense all liquid. The technology embodied in the patents available for auction relates to systems, methods and apparatus for deflecting an angle of a flexible suction tube of a spray dispenser to fully drain the liquid in household spray bottles.

The technology in auction lot 111, overcomes the limitations of many commonly used spray bottles. In most spray bottles, the built-in flexible suction tube is typically aligned with the bottom center of the bottle and not the bottom rim, where the last remaining liquid often resides. Traditional spray bottles thus lead to waste as they tend to make it impossible to use the spray mechanism to fully empty the bottle. Rather the last ounces of liquid are either used by opening the cap and dumping the liquid out or are merely thrown away with the bottle.

The liquid spray dispenser suction tube deflector technology in lot 111 would be of interest to consumer packaging suppliers and manufacturers of products that utilize spray bottles as the invention does not require any modification of standard spray bottles with 20-22 mm closures. Inventor prototype testing has identified well over 100 different bottle designs applicable to the technology.

To request bidder credentials or for further information on this auction or other auctions on the Ocean Tomo Bid-Ask™ Market, contact Layna Guo at [Layna@OTI.com](mailto:Layna@OTI.com) or 1-312-327-8179.

**About Ocean Tomo Bid-Ask Market**

[The Ocean Tomo Bid-Ask Market](#) is an open on-line platform to buy and sell patents. This market is an important step forward, both as a simplified solution for patent transactions as well as a source of information on patent pricing. The Ocean Tomo Bid-Ask Market uniquely combines the efficiency of an online platform with an experienced team of brokers fluent in both English and Mandarin. The market uses standard transaction documents and is open, transparent, and free to view.
