Neuromorphic Technology for Computing and Machine Learning Available on the Ocean Tomo Bid-Ask™ Market

Ocean Tomo Bid-Ask™ Market announces the auction of 38 U.S. patents related to neuromorphic computers and algorithms from Brain Corporation.

Chicago, IL (July 27, 2021) Ocean Tomo Transactions, LLC will auction a portfolio of 38 U.S. patents related to neuromorphic computers and algorithms from Brain Corporation, a San Diego-based robotics, and Artificial Intelligence (AI) leader. The portfolio includes patents on spiking neurons, spiking networks, spike-timing dynamics, neuromorphic learning/AI, visual recognition, and visual tracking optimized for neuromorphic hardware. The portfolio is available through the Ocean Tomo Bid-Ask™ Market, [auction lot 145](#). Brain powers the world's largest fleet of autonomous mobile robots operating in commercial indoor public spaces and is also a recognized leader in neuromorphic technology, developed working with a multinational company.

“Neuromorphic technology will power the next generation of AI,” shares Brain Chief Executive Officer Eugene Izhikevich. Adding, “the patents Brain Corporation is divesting represent early, fundamental research that will be beneficial for potential acquirers including chip manufacturers, autonomous vehicle companies, and AI-enabled companies.”

To request bidder credentials or to receive a non-confidential presentation of this portfolio available on the Ocean Tomo Bid-Ask™ Market, contact Olivia Becker at obecker@oceantomo.com or +1 747 277 9337.

About Ocean Tomo Bid-Ask™ Market

The Ocean Tomo Bid-Ask Market is an open online platform to buy and sell patents. This market is an important step forward, both as a simplified solution for patent transactions as well as a source of information on patent pricing. The Ocean Tomo Bid-Ask Market uniquely combines the efficiency of an online platform with an experienced team of brokers fluent in both English and Mandarin. The market uses standard transaction documents and is open, transparent, and free to view.

About Brain Corporation

Brain Corporation is the global leader in robotic AI software that powers the largest fleet of autonomous mobile robots (AMRs) operating in commercial public spaces. Global OEM partners use the company's cloud-connected platform, BrainOS, to create scalable, self-driving robots that are used by end customers to clean floors, move inventory, and sense environmental data to enable the digital transformation of physical workflows. Fortune 500 brands across multiple
